The impacts of COVID-19 are far reaching and are proving to have a negative impact on the global economy. These impacts have and will continue to trickle down to our local businesses here in Delaware County. We are stressing social distancing and with that comes limiting travel with a common theme across the nation encouraging people to just stay local. We want to encourage Delaware County residents to limit their exposure to this disease by staying local. Delaware County stores, retail shops, drug stores, restaurants and gas stations can meet your needs.

Delaware County encourages all residents to shop locally and reduce your trips to larger areas for shopping convenience. These actions will help our local small businesses through this crisis and will reduce exposure of COVID-19 from outside areas. This is a time to get to know our local Main Street businesses and support our neighbors.
