Tina B. Molé, Chairman
Christa M. Schafer, Clerk

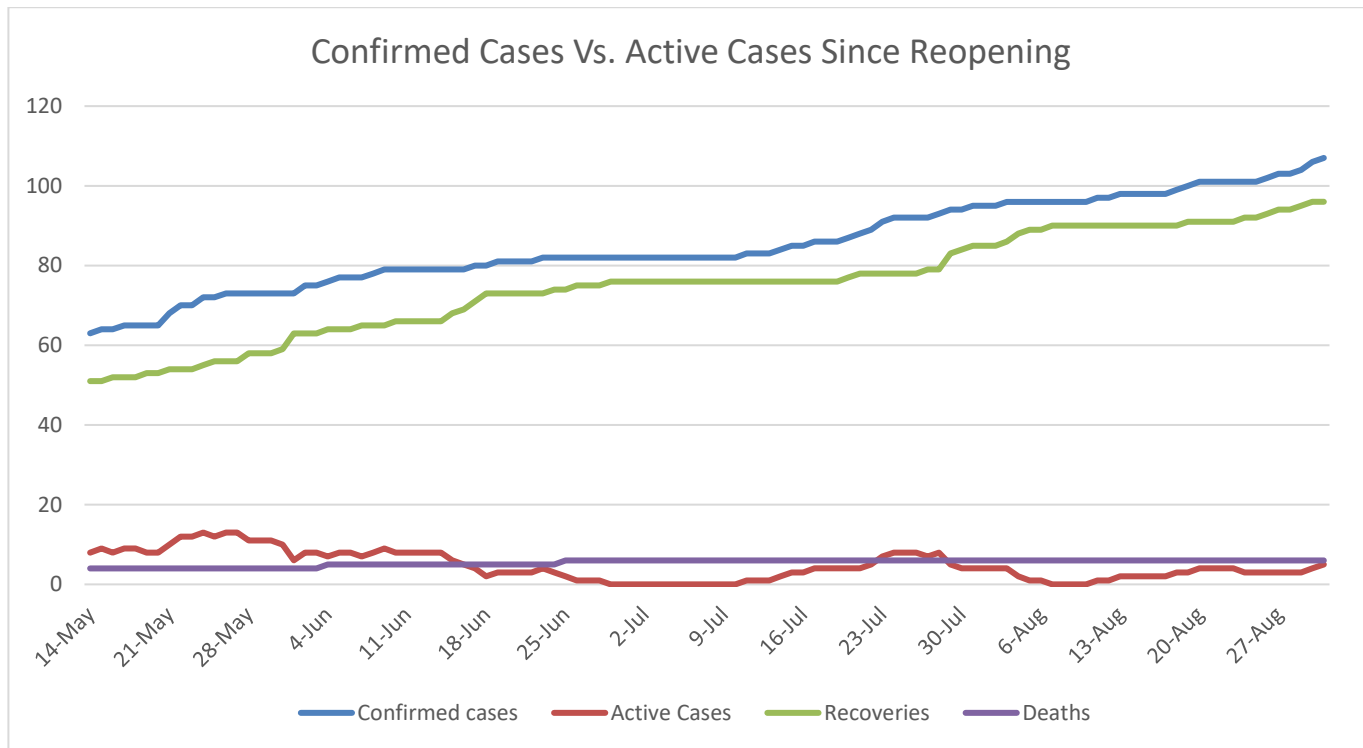

PRESS RELEASE August 31, 2020

Delaware County received one new positive test result for COVID-19 today and no additional recoveries have been reported. The known active cases in the County as of today is 5. To date there have been 107 confirmed positive cases of COVID-19 in Delaware County, with 24 people now under mandatory quarantine and no one under precautionary quarantine. There have been 6376 negative results reported and there are 17 pending test results. As of today 5 people are isolated and receiving care at home and no one is isolated in the hospital, 6 people have died and 96 have fully recovered and are no longer isolated or receiving care.

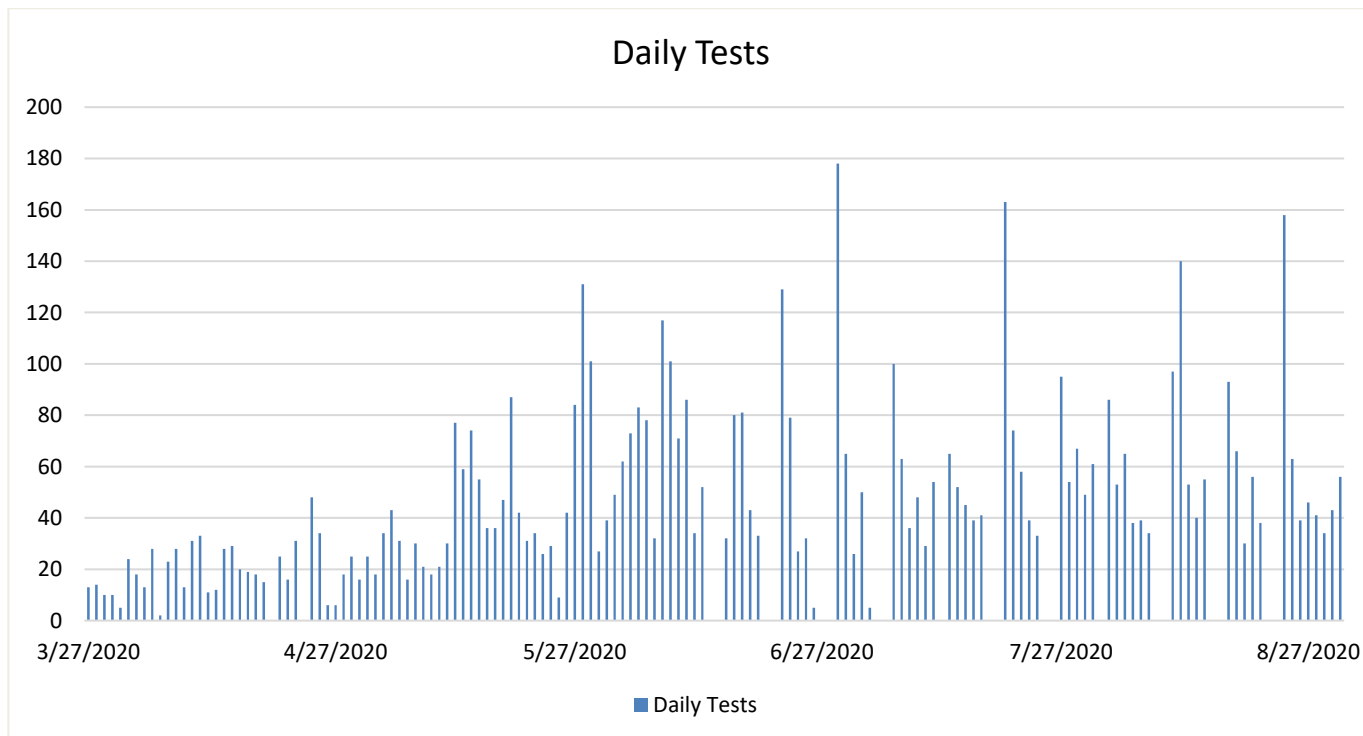

The following chart is a representation of positive cases since March 23, 2020.

The following chart represents the number of cases since the beginning of our economic reopening Phase 1 on May 15, 2020. The numbers have remained fairly consistent with confirmed cases and recoveries rising slowly, keeping the number of active cases and deaths flat from day to day.

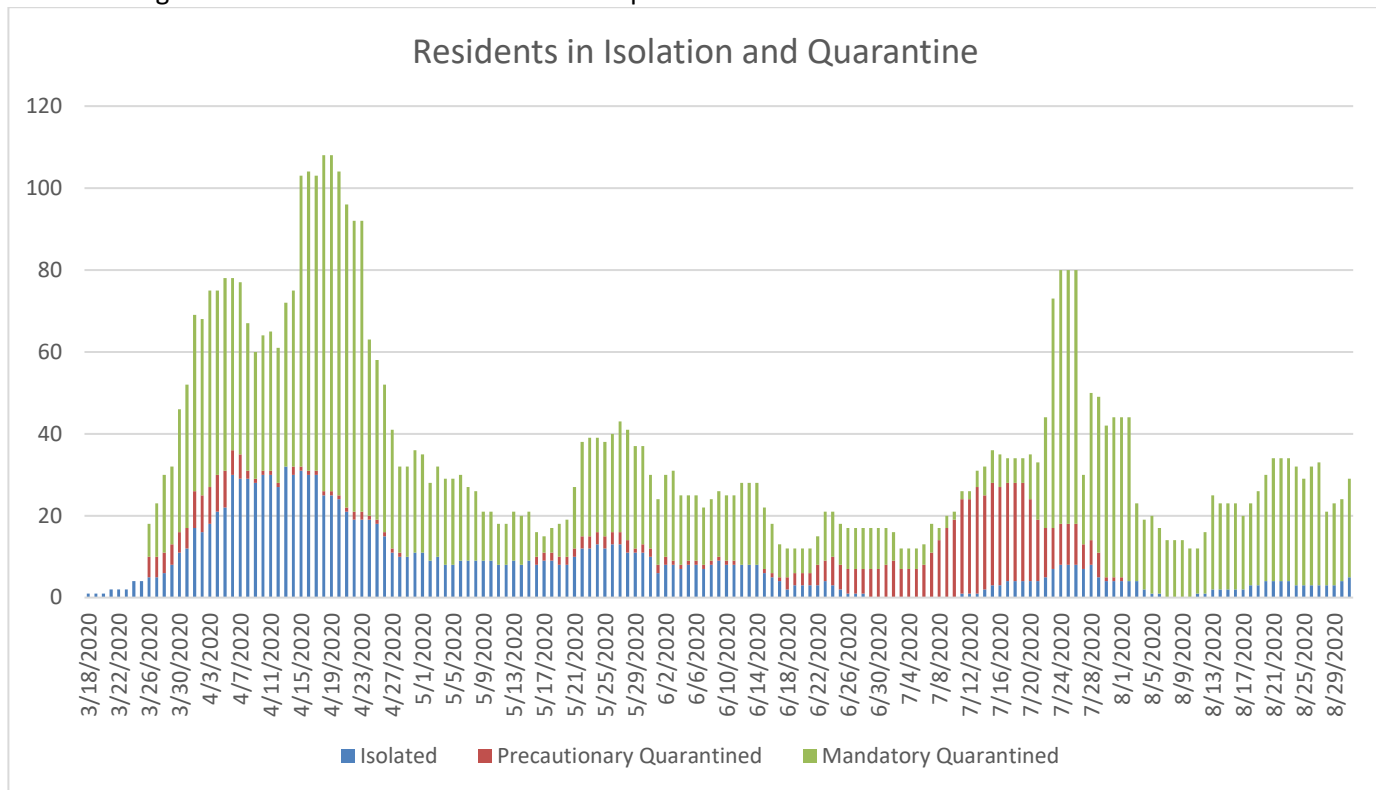

Delaware County remains vigilant in testing residents with 6526 people tested to date. Currently 14.5 % of the total population has been tested with test results being reported every day. The following chart represents the total number of new daily tests since March 26, 2020.

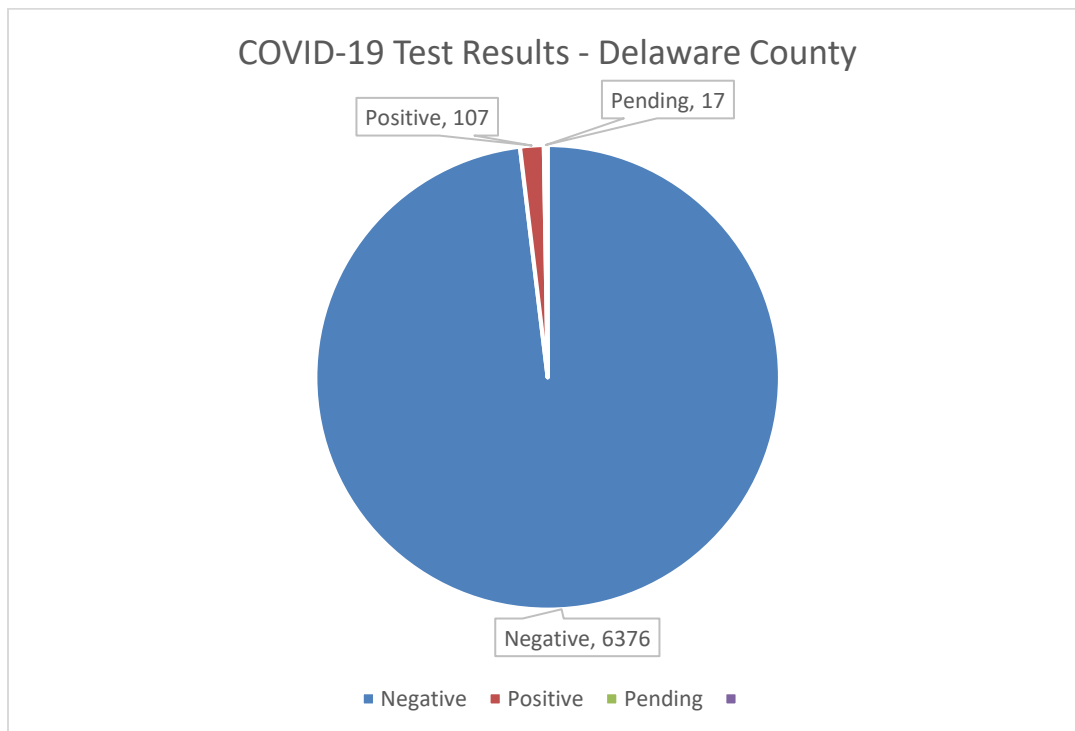

Another important measure that we need to be conscious of are the residents that have been placed under mandatory or precautionary quarantine.

The following chart shows the number of residents quarantined and isolated.

The following pie chart illustrates the amount of testing and the results reported:

The following chart represents the total number of confirmed cases in Delaware County in relationship to the number of those cases that have been discharged from care, deceased and active cases of the disease. The number of known active cases as of today is 5 and the number discharged is 96 while the number deceased is 6.
