Re: Delaware County STOP-DWI

Dear Joe,

A dramatic revitalization has occurred at the Delaware County STOP-DWI Program. Ms. Lisa Barrows has been a breath of fresh air. She is proactive, enthusiastic and responsive. She has worked to bring a collaborative approach to DWI enforcement. Her ability to bring law enforcement, prosecutorial, student, community, and special interest groups together in support of her program is to be commended.

The STOP-DWI Program is now a true advocate for the safety of the traveling public in Delaware County. We must do everything in our power to provide her the resources she requires to foster the continued growth of the program.

I am pleased to have worked with her. She has shown herself to be an untiring leader, active promoter and consummate professional. I commend her and wanted to make you aware of the esteem in which she is held in our county.

Very Truly Yours,

Mark Benedetto  
Chief of Operations  
NY City Department of Environmental Protection
