SUBJECTS OF EXAMINATION: A written test designed to evaluate knowledge, skills and /or abilities in the following areas:

1. Arithmetic reasoning: These questions test your ability to solve an arithmetic problem presented in sentence or short paragraph form. You must read the problem, understand the situation presented, decide what must be done to solve it, and apply the appropriate arithmetic operation(s) in the appropriate order, in order to determine the correct answer. Knowledge of addition, subtraction, multiplication, and division will be necessary. Questions may also involve the use of percents, decimals, and fractions. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test. You will not be permitted to use the calculator function of your cell phone .**

2. Interviewing: These questions test for knowledge of the principles and practices employed in obtaining information from individuals through structured conversations. These questions require you to apply the principles, practices, and techniques of effective interviewing to hypothetical interviewing situations. Included are questions that present a problem arising from an interviewing situation, and you must choose the most appropriate course of action to take.

3. Preparing written material: These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

4. Public contact principles and practices: These questions test for knowledge of techniques used to interact with other people, to gather and present information, and to provide assistance, advice, and effective customer service in a courteous and professional manner. Questions will cover such topics as understanding and responding to people with diverse needs, perspectives, personalities, and levels of familiarity with agency operations, as well as acting in a way that both serves the public and reflects well on your agency.

5. Understanding and interpreting written material: These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions only on what is presented in the passages and not on what you may happen to know about the topic.
